

While I prefer printing on glass, I have also printed on Aluminum and even posters on foam core. Suggested retail prices are based on size and popular media. Prices DO NOT include mounting or framing. Please inquire about different media and sizes.

Size	Glass <sup>1</sup>	Metal <sup>2</sup>	Acrylic <sup>2</sup>
8 x 10"	\$120	\$125	\$200
11 x 14"	\$200	\$150	\$300
16 x 20"	\$250	\$300	\$450
20 x 30"	\$350	\$400	\$600

1 We recommend a matte finish for glass to reduce reflections.

2 We recommend white matte finish to enhance the colors of the deep sky objects. A coat of white paint is applied to the metal before printing. Standard matte may show grain of the metal.

3 Supplier may not have these recommended sizes. Prices are approximate to nearest common dimensions listed here. Contact me for ordering and options:
